

STUD SERVICE CONTRACT

This agreement is to acknowledge the breeding on _____
between our male Labrador Retriever, _____, to your Labrador Retriever
female, _____ AKC# _____ owned by
_____.

Your female must have one of the following:

OFA Certified hips and elbows. We also suggest that the eyes have been checked and are cleared of Retinal Atrophy. A negative brucellosis test **must be** performed and presented to Hunters Ridge Retrievers before a breeding will take place.

_____ stud fee is _____. A _____ deposit is due at time of the first tie and is non refundable. A post-dated check 65 days from the first breeding must be made out to Linda Smith and given to HRR. Two or more puppies constitute a litter. Once the litter is born, it is the responsibility of the females owner to fill out the required AKC litter registration form and send it to HRR along with a stamped envelope and payment to AKC to register the litter. We will fill out the designated area for the stud dog and send it to AKC in order that you receive the puppy "papers" in a timely manner. This can also now be accomplished online at www.AKC.org.

We pride ourselves on genetically sound Labrador Retrievers and we ask that you are honest when breeding to our stud dog. We wish you success on the breeding of your female.

Please sign, date, and return one copy to Hunters Ridge Retrievers.
